Died.

CAVE—At his home near Drexel, four miles east of New Bloomfield, Mo., on Sunday, Oct. 25, 1903, Ely Cave, aged 50 years and 3 months. He had been in poor health for some time and his death was not unexpected. He leaves a wife, 3 sons and one daughter to mourn his death. His remains were laid to rest in the home cemetery, at the A. M. E. Church. May he rest in peace.

Auxvasse News.

DIED—Dea Katy Woolery, daughter of Mr. and Mrs. John L. Woolery, died Oct. 23, 1903. She was born March 26, 1890; age 13 years, 6 months, 27 days. For sixteen months she was ill, but did not take her bed until near death's door. She has been blind for eight months. On the day before her death she visited an uncle and spent the day with his family. She became a member of Pleasant Hill Church, Sept. 19, 1902. All through her illness she exercised great patience and seldom complained. She was loved by all who knew her. She leaves parents, six brothers and two sisters to mourn their loss. To the bereaved family and friends we extend our tenderest sympathy.

Mrs. Dickman, sister of Mr. Woolery, and their mother of Mexico, attended the burial.

George Woolery, a brother of deceased, arrived from Indian Territory, soon after the body had been laid to rest.

A precious one from us has gone,
A voice we loved is stilled;
A place is vacant in our home,
Which never can be filled.
God in His wisdom has recalled
The boon His love has given,
And though the body slumbers here,
The soul is safe in heaven.

Columbia Fruit Store corner 9th and Walnut, the place to buy fruit cheap. Special price on bananas 10 and 1 cents. Fresh Michigan Celery every day. Arena Bros., Props. Phone 134. Oct. 16-2m

Hon. Walter M. Farmer.

It has been reported that Hon. Walter M. Farmer, our talented attorney of St. Louis, is to leave the state. We hope this is not true as Mr. Farmer's place as a citizen and race man would be hard to fill. He is a modest, unassuming gentleman of the highest type, and his removal from the state would be almost an irreparable loss to us as a race.

No Color Line in Commerce.

From the Atlantic Monthly.
It did not take the more level-headed members of the race long to see that while the negro in the South was surrounded by many difficulties, there was practically no line drawn and little race discrimination in the world of commerce, banking, store-keeping, manufacturing and the skilled trades, and in agriculture, and that in this lay his great opportunity. They understood that, while the whites might object to a negro's being a postmaster, they would not object to his being the president of a bank, and in the latter occupation they would give him assistance and encouragement. The colored people were quick to see that while the negro would not be invited as a rule to attend the white man's prayer meeting, he would be invited every time to attend the stockholders' meeting of a business concern in which he had an interest, and that he could buy property in practically any portion of the South where the white man could buy it. The white citizens were all the more willing to encourage the negro in this economic or industrial development, because they saw that the prosperity of the negro meant also the prosperity of the white man. They saw, too, that when a negro became the owner of a home and was a tax-

payer, having a regular trade or other occupation, he at once became a conservative and safe citizen and voter; one who would consider the interests of his whole community before casting his ballot; and, further, one whose ballot could not be purchased.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address, F. J. CHENEY & Co., Sold by Druggists 75c. Toledo, O. Hall's family Pills are the best.

Curious Facts.

A German mathematician estimates that the average man who lives to be 70 years old, consumes \$10,000 worth of food in his life.

In twenty years the aggregate wealth of the country has more than doubled—increasing from

\$42,000,000,000 to \$94,000,000,000,000.

The average life of a dog is about 10 years. A few live to be 15 and we have had records of their having lived from 20 to 25 years.

The number of irrigating ditches and canals in operation in the United States exceeds 20,000, and their combined length is not less than 50,000 miles.

More men have died and are buried in the Isthmus of Panama, along the line of the proposed canal, than on any equal amount of territory of the world.

Lieutenant Hino, of the Japanese infantry, has invented an automatic pistol which will fire eighty cartridges a minute. The range is more than 1,000 yards.

The land occupied by olive orchards in Italy is estimated at 1,300,000 acres, and the quantity of olive oil annually produced at from 70,000,000 to 75,000,000 gallons.

The death rate of the globe is estimated at 68 a minute, 97,920 a day, or 35,740,800 a year. The birth rate is 70 a minute, 100,800 a day, or 36,792,000 a year, reckoning the year to be 365 days in length.

When Victor Emmanuel II died the sum of \$400,000 was in a short time subscribed for a monument. The Government added \$1,600,000. The estimate now is that the total cost will reach about \$6,000,000. The monument is to be the most beautiful and costly in modern Italy.

MRS. M. L. HUGGARD,

12 N. 6th street, COLUMBIA, MO.

Schools and Teachers.

Educators throughout the country are interested in the decision of the appellate division of the United States Supreme Court affirming the right of the school boards of New York to declare the position vacant of any woman teacher or principal who is married during the term of service. There is a difference of opinion among school masters upon the subject, which has resulted in very much discussion. The school board adopted a resolution that marrying should be equivalent to resigning. Two Brooklyn teachers brought suits to test the law, and the lower court decided in their favor. Supt. Maxwell then brought the matter before the Supreme Court, and the result was the upholding of the New York school board. Justice Hooker, in giving his opinion, said:

"The purpose of the rule is not to discourage marriage. It is rather in the public interest to dispense with the services of that class of teachers who assume new duties and step into another field, and where it is thought their environments would tend toward the disparagement of school interest."

In the majority of the cities of the country there is either a written or unwritten law upon the subject, which makes marriage of the

woman teacher equivalent to resignation, and it seems manifestly wise that such should be the case.

Dr. Fred W. Atkinson, ex-superintendent of education in the Philippines, made an interesting speech before the Massachusetts Schoolmaster Club last week, in which he gave a graphic description of the conditions in the islands at the time the first consignment of American teachers went out there and of the characteristics of the people. As the English language is to be the official language after 1906, the natives who desire to hold office are very anxious to acquire it before that time. He described the children as being very quick to learn, but not fond of continuous effort, as the American children.

Prof. J. H. Jackson, formerly president of Lincoln Institute, has recently published and placed before the public a history of education. It is quite an interesting volume and every one interested in education should have a copy of this book.

Washington, D. C., Oct. 20.—President Roosevelt to-day issued his proclamation calling an extra session of congress, on Monday, Nov. 9, to consider the reciprocity treaty with Cuba, and attend to some other matters.
